

# THE DISCOVERY OF AOTEAROA

JEFF EVANS

*The Discovery of Aotearoa* is the most comprehensive account yet of the great Polynesian migrations that had their final expression in the discovery of New Zealand.

Based on extensive research among primary sources, the book deals in a no-nonsense style with the causes and characteristics of Polynesian migration, the search for

Hawaiki, the legend of Kupe, traditional Polynesian navigation and the oral preservation of seafaring knowledge. The second part of the book presents a gripping first-hand narrative of the voyage of the canoe *Hawaikini* from Tahiti to New Zealand in 1985.

Richly illustrated with maps, drawings and photos, *The Discovery of Aotearoa* is a fitting homage to the amazing navigational feats of the Polynesian canoe voyagers.
